

International Care Ministries **2016–17 Annual Report**

International Care Ministries

We look forward to a day when the world is free of ultrapoverty.

ICM is focused.

We are committed to equipping those living at the absolute bottom of the economic ladder to break free from the strongholds keeping them in ultrapoverty.

ICM is effective.

We only invest in strategies backed by evidence, not just warm feelings. We can always do better tomorrow than we did yesterday.

ICM is efficient.

We are dedicated to delivering the most impact for the lowest cost, capitalizing on local partnerships that allow us to achieve impact at scale.

Reach: Impact at Scale

As the 12th most populous country in the world, the Philippines is home to more than **100 million people**.

Despite robust economic growth in recent years, **25 million Filipinos** still live in extreme poverty on incomes **below US\$1.25 per day**.

At the absolute bottom of this economic ladder are **seven million people** struggling to survive in “**ultrapoverty**” on **less than US\$0.50 per day**.

ICM aspires to empower all ultrapoor families across the southern two-thirds of the Philippines.

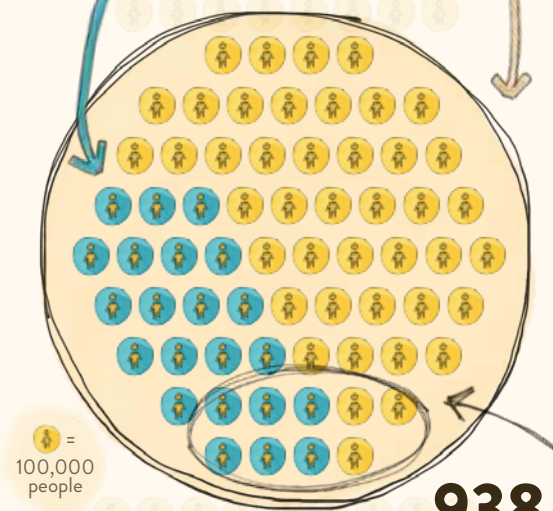

Areas reached by ICM contain
19,761,000 people

of those...

6.5 million
live in **extreme poverty**

of those...

2.2 million
live in **ultrapoverty**

938,305
people served by ICM by mid 2017

Focus: Those Living in Ultrapoverty

Living on less than US\$0.50 per day:

A daily struggle to meet even the most basic needs.
Crowded, inadequate, unsafe homes.
Lack of easy access to clean water and proper sanitation.
Poor health. Hunger. Malnutrition.
Few networks of support.
Low self-confidence and discouragement.

Living in ultrapoverty means living without hope.

ICM's initiatives are specifically targeted to the needs of ultrapoor households.

Among those living in ultrapoverty in ICM areas:

28¢
average daily income

32%
of mothers have had a child die

10%
are seriously ill at any time

26%
defecate outside

22%
go to bed hungry at least once a week

61%
live in cramped homes

31%
live with scrap roofs

32%
live with dirt floors

53%
don't purify their water

40%
live with no electricity

Transform Program

Progress out of poverty must start with the belief that change is possible.

Transform Fuels Hope by Strengthening Friendships & Capabilities

Among the ultrapoor, a lack of social connectedness is a key stronghold preventing progress out of poverty. Local social networks are extremely important, exerting influence on identity, aspirations, decision-making and behavior. But social networks alone are not enough. Ultrapoor families also lack important knowledge, skills and experience to cope with the hardships of life: relational skills, health knowledge and livelihood experience. Solutions to these interrelated problems must be interlinked.

2015–2016 Reach
 169,887 Family Members
 34,706 Households
 978 Communities

A local pastor invites 30 of the poorest families in his/her community to join *Transform*, ICM's integrated education program that builds capabilities in three key areas: Values, Health and Livelihood (VHL). Six volunteer counselors from the local community join to help lead small groups, offer one-on-one support and provide encouragement. Once a week, ICM Health and Livelihood trainers join the pastor as they teach the interactive VHL curriculum. At the end of four months the whole community enjoys deeper relationships, healthier families and greater productivity.

Cost Per Transform Community
 (37 households): US\$2,500

Values

Fostering attitudes and behaviors that build strong relationships

Health

Promoting healthy life practices to increase family wellbeing

Livelihood

Nurturing entrepreneurial spirit and skills necessary for sustainable productivity

2016–2017 Targets

Maximizing Impact

Without measuring, we are speculating.

ICM is committed to data collection that allows us to report with confidence that our programs deliver real-life, positive change.

Minimizing Cost

Hope is not expensive.

Our costs stay low by partnering with thousands of in-community volunteers. For a little over US\$10 per person, new trajectories of hope become reality.

Future Planning

Fostering Strong Values

ICM's Values curriculum helps people who have lived their whole lives in poverty to overcome the underlying feelings of inferiority and passivity that hold them back. Presented from a Biblical worldview, the discussion-based lessons lead to greater respect for self and others that results in stronger families, more confident choices, and aspirational hope for the future. The Values lessons are taught and modeled by the local partner pastor as well as by the volunteer counselors and ICM staff. Attendance at the Values sessions, while encouraged, is optional. The Values curriculum focuses on three key areas: relationships, personal character and wise choices.

Building Connectedness

Transform strengthens social networks for the poor on many levels.

Links Between Community Members

Participants, local pastor,

Promoting Healthy Living

Poverty increases vulnerability to health problems. One medical crisis can wipe out any progress made in the fight out of poverty. ICM's Health curriculum expands awareness of health issues leading to changes in behavior that result in improved family health and wellbeing. In addition to preventive education, ICM Health teams also screen for common health problems as well as more serious medical conditions. For less critical concerns, Medical Treatment Packs and follow-up care are provided. People requiring more serious care enter ICM's Medical Case Program, where individual treatment and personalized patient care are available. Nutrition support is provided to all families. Children identified as clinically malnourished enter ICM's Home-Based Feeding program.

Conchita

Special Medical Case

After 20 years with an unsightly and uncomfortable cyst on her neck, Conchita received help from ICM to receive the medical assistance she needed. *"Thank you so much for extending my life and giving me a chance to live long with my family and to see my grandchildren grow."*

Angel

Home-Based Feeding

When Angel's mother died shortly after she was born, her grandparents started to care for her but she was already weak and thin. One year later, little Angel weighed just under 10 lbs—barely more than a newborn. ICM's Home-Based Feeding brought help—Angel gained five lbs in less than four months.

Eugene

Medical Care & Home-Based Feeding

Since October 2015, ICM's Health team has walked with six-year-old Eugene's family through his hospitalization, blood transfusions, deworming, TB and malnutrition treatments. He has gained a healthy 10.3 lbs over this past year of treatment and is on his way to a complete recovery and a full future!

Jeeryn

Safe Pregnancy Training

Jeeryn was so thankful for the help and encouragement she received during her pregnancy. *"The food and baby supplies in the pregnancy treatment pack was wonderful to receive,"* Jeeryn shared, *"but the training on assisted delivery and breastfeeding was really important and helpful!"*

Archiel

Surgical Medical Case

Archiel was born with a foot deformity that prevented him from learning to walk. At 14 months, he was still being carried from place to place. ICM helped Archiel receive corrective surgery that not only lets him run and play with other children, but gives him a future to look forward to as well.

Empowering Sustainable Livelihoods

One of the greatest challenges facing those living in ultrapoverty is the need for sustainable income. Without livelihoods and the capital needed to start them, those living in destitution lack the confidence to take the risks required for success. ICM's hands-on Livelihood curriculum provides participants with small business management skills and gives training in specific livelihood solutions. By allowing participants to experiment with new livelihoods at low-risk and by helping individuals to set achievable weekly goals, ICM is seeing new entrepreneurs emerge with the confidence and optimism necessary for sustainable income generation. The Livelihood curriculum focuses on three key areas: small-business skills, livelihood options, and savings groups.

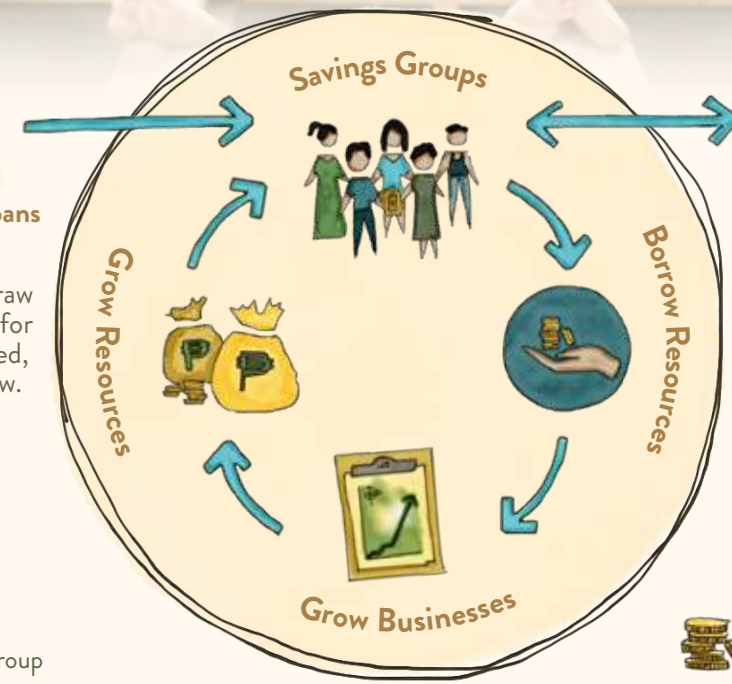

Stimulating Entrepreneurialism: Business-in-a-Box Microloans

ICM offers small-business starter kits containing the raw materials to run a business for a week. As success is realized, confidence and savings grow.

2015–2016 Results

- 35,938 New Businesses
- 90% Repayments
- 965 Savings Groups Launched
- 26,553 New Savers
- US\$77 Average Savings Per Group

Promoting a Culture of Saving: Prevail Savings Groups

Self-governed savings groups are clustered for monthly training and accountability, promoting sustainability.

2015–2016 Results

Prevail Savings Groups
(as of May 2016)

Cash on Hand **US\$198,110**
Dispensed in Loans **US\$193,119**

Total Savings **US\$391,229**

Lila
Savings Group

Lila has a true entrepreneurial spirit! She did laundry to make money to buy fish which she sold to make more. A little knowledge about budgets from *Transform* training and a loan from her Savings Group enabled her to repair her husband's boat. Now he can fish for himself instead of working for others and she can sell what he catches. They now have US\$88 in savings.

Josefa
Business-in-a-Box

Josefa's curiosity led her to *Transform*. "There is no harm in trying," she said. Josefa learned new ways to earn income by creating and selling cleaning products. She became more proactive, looking for customers rather than waiting for them to come to her. She now makes six times more per week than before— from US\$11 to US\$71.

Mary Sunshine
Savings Group

The 36 participants of the *Transform* in Lapuz, Iloilo City brought in two other members from the community to form the Harvester Savings Group. In just three months they saved a total of US\$242. They have a plan to start a group business selling cleaning products. The profits will be shared by all group members.

Ricky
Business-in-a-Box

Ricky was hopeless after losing his job as a poultry farmer until he was introduced to ICM's *Transform* program. He particularly enjoyed the vegetable gardening class. Ricky then started making natural botanical pesticides and enriched his vegetable garden soil through vermiculture. Now he harvests twice a week and sells the produce, earning US\$15 a week.

Arimayan
Savings Group

How did the Arimayan Savings Group save US\$184 in less than two months? Cooperation and encouragement. When one member is struggling to make their contributions, the others are quick to visit and encourage because they have seen the benefits. "It is a big help for me to know where to run in times of emergency."

Jesus
Business-in-a-Box

Life used to be very tough for Jesus, a tricycle driver in Koronadal. When he was lucky enough to find passengers, he still struggled to bring home enough to feed his family. *Transform's* Livelihood training equipped Jesus to start a side business making and selling rice cakes that has doubled his income!

Jumpstart Kindergartens

In some communities, ICM discovers high numbers of educationally at-risk children. This is due to many reasons—public schools are too far away, families cannot afford public school fees, or there is a lack of understanding about the importance of education.

ICM runs Jumpstart kindergartens in communities of greatest need. These are usually in geographically-isolated and hard-to-reach areas that lack sufficient support from the public school system. Each dual-stream kindergarten, held in the host church facility, educates 30–40 of the most vulnerable children in each community. We help our young learners develop the academic skills, self-discipline and readiness they need to excel as they move up to first grade in public school. Without Jumpstart, these children would struggle in public school or may not attend at all. With Jumpstart, these ultrapoor children often become the strongest students in their public school classrooms.

2015–2016 Reach

75 Jumpstart Kindergartens
2,341 Graduates

Education For: Students

- Ten-month kindergarten education
- Daily nutritious meals
- Health checks for all children
- Uniforms, backpacks, school supplies

Parents

- *Transform's* four-month Values, Health & Livelihood training
- Training in the importance of childhood education
- Involvement in students' education & development

2016–2017 Targets

74 Jumpstart Kindergartens
2,220 Students

Thrive Pastor Network

ICM's ability to reach those living in ultrapoverty is only possible through partnerships with thousands of pastors and their congregations who serve in slums and poor communities across the Philippines.

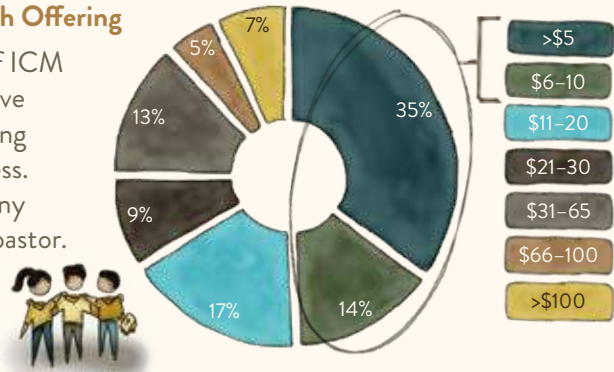

Our Partner Pastors

- Already live & serve among the poor
- Are driven by compassionate commitment
- Volunteer countless hours to lead VHL lessons & support participants
- Donate use of their church venues to host programs
- Teach & model *Transform's* lessons
- Serve as chaplains to savings groups
- Continue engagement with participants after completion

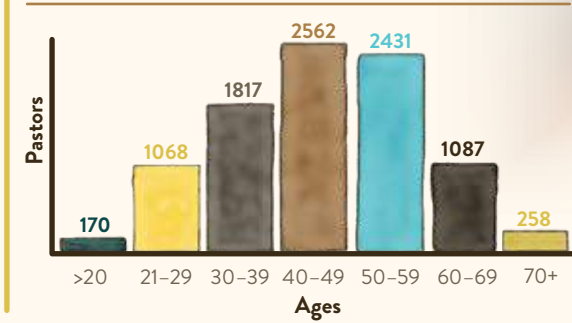

Church Demographics

Weekly Church Offering

Nearly 50% of ICM churches receive a weekly offering of US\$10 or less. This includes any salary for the pastor.

Pastor Demographics

Church Size

ICM supports our partner pastors with two days of training each month to strengthen churches for more effective community transformation.

Thrive: First Day

- Transferable experiences for discipleship
- Small group strategies
- Peer mentoring & accountability
- Bible study & prayer
- Disaster preparedness training

Thrive: Second Day

Two-year certificate ministry & leadership course designed to produce healthy pastors, healthy churches & healthy communities.

Training Partners

- Antioch Institute
- Multiplying Churches & Communities
- Healthy Church Pathways
- Asian Theological Seminary
- Development Associates International
- Systematic Asian Leadership Training

86
Thrive Districts

2,964
Average Monthly
Pastor Attendance

4,821
Pastors Attending
Regularly

9,605

Evidence

Commitment to effectiveness means dedication to data.

Monitoring

ICM tracks everything that happens on the ground.

- Implementation by **500+** ICM staff
(Lessons taught, food distributed, medicines dispersed, home visits)
- Engagement of **35,000+** individual participants
(Attendance, weights of children, loans accepted, savings, gardens)

50,000,000+
Data Points

Evaluation

Monitoring isn't enough. Our objective is impact.

- **200,000** pre- and post-program participant surveys since 2009
- ICM retains independent contractors to conduct surveys
- Research methods continually refined to address specific questions

Project Tomorrow

We can always do better tomorrow than we did yesterday.

- Project Tomorrow is a database that will integrate monitoring statistics, evaluation data and community demographics.
- Added visibility will inform strategies for improved impact and enable real-time response to problems.

The Gold Standard: Randomized Controlled Trials

Considered the “gold standard” for measuring intervention effectiveness, randomized controlled trials (RCT) analyze impact against a control group. RCTs compare the impact of ICM's programs to what would have happened if ICM had not showed up.

We are thrilled to report that ICM's first internal randomized controlled trial (surveying 3,000 households) has validated Transform's positive impacts with a 99% significance level.

Following our initial RCT, ICM invited Innovations for Poverty Action (IPA) and Yale University to conduct a third-party RCT measuring *Transform's* effectiveness. The IPA study surveyed 8,000 ICM households. Until published, the midline results remain confidential. IPA intends to revisit these homes in 2017 for a two-year final survey.

In the meantime, ICM and IPA are working together to integrate RCTs into ICM's regular evaluation process. We are planning at least three additional RCTs in 2017.

Heroes: Philippine Field Staff

The work of ICM is made possible by our team of **509 Filipinos** serving **19 provinces** from **10 bases** of operations in the Visayas and Mindanao.

Total Budget	435,723	73,914	9,537	100%

In 2009–10 ICM reached 50,000 people, increasing to 177,000 people in 2016–17. A 250% increase on our impact eight years ago.

In 2015–16, ICM's budget was US\$8.9M and our actual expenses were US\$9.5M. This 7% increase was due primarily to expenses associated with rebuilding inventories of donated goods.

2016–2017 Budget

Year ending May 31, 2017 (in ‘000s)

Program	Philippine Peso PHP	HK Dollars HK\$	US Dollars US\$	%
Transform (Community training)	243,330	41,953	5,413	55%
Medical Treatment Packs	17,925	3,090	399

Other Services (Health, Capital, Disaster)	21,269	3,667	473	5%
Support	26,695	4,603	594	6%
Total Budget	441,231	76,074	9,816	100%

In 2016–17, ICM's budget is US\$9.8M, virtually flat to last year in Philippine Peso terms. The value of donated goods distributed in 2015–16 was US\$4.2M (US\$3.8M food, US\$0.4M shoes), which is expected to remain flat in 2016–17. ICM was able to reach 177,000 people while holding its support expense to 6% of overall expenses.

These pages consolidate the results of two ICM Philippine charities (ICM Foundation, Inc. and ICM Manila, Inc.) as well as certain costs incurred overseas that relate directly to Philippine operations. These pages exclude other costs from Hong Kong and the USA. Non-Philippine costs are supported by designated donations (including banquet tables, tangible auction items, donations from the Board of Directors and Springboard donations), allowing virtually all other donations to go straight to the Philippines.

ICM's financial statements in the Philippines are audited by SGV & Co, the largest accounting firm in the Philippines, an affiliate of Ernst & Young LLP. All of ICM's audited financial statements from the Philippines, Hong Kong and the USA are available on request. ICM's books are open to our donors. Any questions about our finances? Just ask.

Partners

While Hong Kong individuals and foundations are the primary donor demographic, support from Manila is growing rapidly. Support from individuals in the US, Australia and the UK is also growing. ICM is diversifying its donor base through new partnerships with public funders.

In-Kind Partners

An important aspect of ICM's work is our ability to provide people living in poverty with nutritional food and other essential resources. This is possible due to our partnerships with other nonprofit organizations who share our values and vision. In 2015–16, we distributed 60 containers with 2.7 million packages of fortified food representing 16 million nutritious meals for the poor. ICM distributed 14,246 pairs of shoes donated by **Convoy of Hope**. We also received 340,450 bars of soap from **Soap Cycling**.

Cash Donation Breakdown by Country

Cash Donation Breakdown by Source

Partnership Between USAID and ICM

In September 2015 the United States Agency for International Development (USAID) awarded ICM a grant to help increase household incomes of 90 communities in the Philippine province of Iloilo by developing their entrepreneurial skills. The Catalyzing Entrepreneurship Among Iloilo's Ultrapoor is a 17-month project that facilitates inclusive economic growth to individuals living in ultrapoverty and supports USAID's commitment to eradicating extreme poverty. It aligns with USAID's Cities Development Initiative which promotes inclusive and sustained economic growth in secondary cities in the Philippines. As of June 2016 the project has supported the training of **1,632 Transform graduates**, the startup of **1,250 micro-businesses**, and the creation of **60 savings groups**. A total of **509 mobile money accounts** have also been initiated. The third and final batch of USAID-sponsored *Transform* participants graduated in September 2016.

Project CHIC (Capacity-building for Humanitarian Initiatives in Capiz)

In July 2016 the Financial Enablers Project as part of the Disaster Emergency and Preparedness Programme (DEPP) of Start Network funded by UKAID (formerly DFID), awarded a consortium grant to ICM together with Philippine Relief and Development Services (PhilRADS) and Peacebuilders Community, Inc. (PBCI). The grant supports capacity development initiatives of ICM, PhilRADS and PBCI to enable local faith-based groups to provide rapid, compassionate, and culturally appropriate response in times of disaster using indigenous strategies, people, and resources. Start Network is a consortium of 29 INGOs, mostly based in the UK, engaged in humanitarian work. Consortium members who are directly managing the Financial Enablers Project are Oxfam GB (lead), Christian Aid and Tearfund.

Other Major Partners

Feeding the Hungry

In 2015–16 ICM distributed over 60 forty-foot containers of food (over 16 million meals) to ultrapoor families to help them provide better nutrition for their children. The highly nutritious food specifically designed for malnourished individuals, is donated by five nonprofits: **Feed My Starving Children, Stop Hunger Now, Kids Against Hunger, Harvest Pack** and **Cross International**.

While all the food is donated, ICM incurs the cost of international shipping, customs fees, logistics, and food storage as well as the land delivery costs to the geographically isolated and disadvantaged communities served. **Philippine Span Asia Carrier Corporation** partners with ICM by donating free domestic shipping within the Philippines.

More than 100,000 hungry children are fed each year through a range of nutritional interventions:

- Home-Based Feeding for those suffering from malnutrition
- Medical Case Program nutrition support
- Pregnancy & newborn nutrition support
- Daily lunches for 2,220 children in ICM's 74 kindergartens
- Disaster response food packages
- Nutrition support for families in holistic community-based skills training

2016–2017 Budget:

16 million meals to be distributed worth US\$3.8M

Transportation costs to be incurred by ICM: US\$0.7M

Every US\$1 donated to feeding the hungry

US\$6.50 worth of food (25 meals)

For donations requiring tax-deductible receipts in these countries, please email us at give@caremin.com for details on how to give.

Total Amount: \$ _____

ICM, My Charity

It is a privilege to support the life-changing work of ICM. Their programs make a positive and sustainable impact on the ultrapoor in the Philippines. I have spent time with beneficiaries of ICM's work—it was both humbling and inspiring to hear of their renewed hope for a better life for their families.

—**Catherine Husted**,
Head of Pro Bono and
Community Investment at
Allen & Overy, Hong Kong

ICM does a fantastic job of caring for the neediest of society through its culture of innovation, relentless passion and cutting edge research to deliver the greatest impact for every dollar spent. We consider it to be both a blessing and a privilege to be a part of such an organization so dedicated to transforming lives.

—**Ramon Maronilla**,
Financial Services Professional
& **Vicki Maronilla**

In order to reach the ultrapoor communities—a sector which is difficult to reach without a holistic intervention—we leverage and work with like-minded partners. ICM provides the experience, local network and holistic intervention through the *Transform* program. Our partnership with ICM has enabled us to reach this ultrapoor segment with a high impact program.

—**Faye Corcuera**,
Executive Director,
BPI Foundation, Inc.

Thank you ICM for allowing my son and I to make an expression of care. We care, and must be to these others, what we desire for ourselves. Through ICM, we are able to make an expression of deep care with a strategic impact. ICM brings goodness, grace, hope and life to those who have the most desperate of needs. Keep it up and let us do more and more again!

—**Joseph J. Walsh, Sr.**, Director,
& **Joseph J. Walsh, Jr.**,
Managing Director, JJW
Consultancy, Ltd.

Special thanks to our photographers: Brian Yen, David McIntyre, Haley George, Krisha Lim, Mark Lehmkuhler, ICM's Communication Officers
